Managing Safely

Every manager needs an understanding of their safety and health responsibilities

Fact sheet

At IOSH we know that success in safety and health training comes from getting people fully involved, having fun and learning by doing. We want to get delegates really thinking about what they're learning – and having the confidence and enthusiasm to put it into practice when they're back at work – so that everyone notices the difference. The COVID-19 pandemic has been a wake-up call. It's now clear that occupational safety and health (OSH) is not just a nice-to-have, but a key element of business management.

Managing Safely® is unlike any other course. It's a practical programme with a sharp business focus, full of step-by-step guidance. You'll find the highly innovative format and content engaging and inspiring your staff – critical to getting safety and health embedded across the whole organisation.

Who is Managing Safely for?

Managing Safely is designed for managers and supervisors in any sector and in organisations of all sizes. They won't suddenly become safety experts – but they'll get up-to-speed on the practical actions they need to take and gain the knowledge and tools to tackle the safety and health issues they're responsible for. Importantly, Managing Safely makes a powerful case for safety and health being an integral part of day-to-day management and business.

What does the business get?

- **globally-recognised and respected certificated training for your managers and supervisors**
- **peace of mind from training that's designed and quality-assured by the Chartered body for safety and health professionals, IOSH**
- **flexibility – the programme can be delivered flexibly so that it suits your business**
- **cost-effective learning – health, safety and environmental basics are covered in a single programme.**

Memorable and thought-provoking facts and case studies from around the world enrich learning over the whole course. Each module is backed by crystal-clear examples. Recognisable scenarios and summaries reinforce key learning points.

Managing Safely covers...

- **Assessing risks**
- **Controlling risks**
- **Understanding responsibilities**
- **Understanding hazards**
- **Investigating incidents**
- **Measuring performance.**

Successful delegates are awarded an IOSH Managing Safely certificate.

What results can I expect?

- **greater productivity, from fewer hours lost due to sickness and accidents**
- **improved company-wide safety awareness culture and appreciation of safety measures**
- **active staff involvement to improve the workplace**
- **enhanced reputation in your supply chain.**

Managing Safely is delivered by IOSH's network of approved training providers. A one-day Managing Safely Refresher course is available to delegates who have already completed the full Managing Safely course.
